Education

Zhejiang University (ZJU), China | **Supervisor: Prof. Donglian Qi** Sep. 2022 – Mar. 2025
M.S. Student in Electronic Information Engineering
Current GPA: 3.91/4.0

Henan University (Henu), China | **Supervisor: Prof. Lijia Chen** Sep. 2018 – Jun. 2022
Bachelor of Science in Communication Engineering
GPA: 3.93/4.0, **Rank:** 1/107, **Outstanding Graduate of Henan Province**

Selected Publications

Conference Papers

1. PredToken: Predicting Unknown Tokens and Beyond with Coarse-to-Fine Iterative Decoding
   Xuesong Nie, Haoyuan Jin, Yunfeng Yan, Xi Chen, Zhihang Zhu, Donglian Qi
   IEEE/CVF Conference on Computer Vision and Pattern Recognition (**CVPR**), 2024
2. Wavelet-Driven Spatiotemporal Predictive Learning: Bridging Frequency and Time Variations
   Xuesong Nie, Yunfeng Yan, Siyuan Li, Cheng Tan, Xi Chen, Haoyuan Jin, Zhihang Zhu, Stan Li, Donglian Qi
   AAAI Conference on Artificial Intelligence (**AAAI**), 2024
3. Triplet Attention Transformer for Spatiotemporal Predictive Learning
   Xuesong Nie, Xi Chen, Haoyuan Jin, Zhihang Zhu, Yunfeng Yan, Donglian Qi
   IEEE/CVF Winter Conference on Applications of Computer Vision (**WACV**), 2024
4. AMD: Towards Robust Appearance-Motion Disentanglement for Predictive Learning
   Xuesong Nie, Haoyuan Jin, Yunfeng Yan, Xi Chen, Zhihang Zhu, Donglian Qi
   European Conference on Computer Vision (**ECCV**), **Under Review**, 2024
5. Object-Level Pseudo-3D Lifting for Distance-Aware Tracking
   Haoyuan Jin*, **Xuesong Nie***, Yunfeng Yan, Xi Chen, Zhihang Zhu, Donglian Qi
   ACM International Conference on Multimedia (**ACMMM**), **Under Review**, 2024
6. SAMP: Adapting Segment Anything Model for Pose Estimation
   Zhihang Zhu, Yunfeng Yan, Yi Chen, Haoyuan Jin, **Xuesong Nie**, Donglian Qi, Xi Chen
   IEEE International Conference on Multimedia and Expo (**ICME**), 2024

Journal Papers

$\star$ denotes equal contribution

1. ScopeViT: Scale-Aware Vision Transformer
   Xuesong Nie, Haoyuan Jin, Yunfeng Yan, Xi Chen, Zhihang Zhu, Donglian Qi
   Pattern Recognition (**PR**), 2024
2. AHOR: Online Multi-object Tracking with Authenticity Hierarchizing and Occlusion Recovery
   Haoyuan Jin*, **Xuesong Nie***, Yunfeng Yan, Xi Chen, Zhihang Zhu, Donglian Qi
   IEEE Transactions on Circuits and Systems for Video Technology (**TCSVT**), 2024

Research Experiences

Generative Models for Images and Videos | **Alibaba, Mentor: Dr. Xi Chen** Sep. 2023 – Present

- **Topic:** Explore mainstream video and image generation frameworks, such as Vector Quantization, Autoregressive, Non-Autoregressive, and Diffusion-based models.
- Proposed a high-quality visual generative framework **PredToken**, published at CVPR 2024, which ensures low-level consistency and captures high-level dynamics by decoupling space-time tokens for iterative cascaded decoding.

Spatiotemporal Predictive Learning | **Westlake University, Mentor: Prof. Stan Z. Li** Mar. 2023 – Aug. 2023

- **Topic:** Investigate spatiotemporal modeling methods and introduce a new spatiotemporal predictive benchmark.
- Developed **OpenSTL**, an open-source spatiotemporal predictive library, supports various methods and tasks from synthetic to real-world data. Presented an efficient recurrent-free model **WaST**, published at AAAI 2024.

Efficient Visual Perception Backbones | **Alibaba, Mentor: Dr. Xi Chen** Sep. 2022 – Feb. 2023

- **Topic:** Research focuses on the design of efficient visual perception backbones based on CNNs and Transformers.
- Proposed a scale-aware vision transformer called **ScopeViT**, that implements attention at different scales within a single building block to effectively learn inter-object relationships, published at Pattern Recognition 2024.

National Major Scientific Research Instrument Development | **Zhejiang University** 2022 – Present

- **Topic:** Developing a video and image detection platform for defect detection in power transmission and transformation equipment. (**Supervisor: Prof. Donglian Qi**, **Project Funding:** 9.616 million CNY)
- Proposed an online multi-object tracker with authenticity hierarchizing and occlusion recovery **AHOR** and a novel video transformer with triplet attention **TAT**, published in TCSVT 2024 and WACV 2024 respectively.

Honors and Awards

National Scholarship (M.S. Student) | Chinese Government Oct. 2023
Highest scholarship awarded by Chinese Government, top 0.1%

Golden Age Scholarship | Zhejiang University 2022 – Present
Awarded to outstanding full-time students at Zhejiang University for 3 years

Outstanding Graduate of Henan Province Feb. 2022
Awarded to graduates with academic achievements, top 0.1%

The Stars of Self-improvement of Chinese College Students | China Youth Daily Dec. 2021
Highest national honorary awards at the spiritual level, top 2 campus-wide

1st Prize in the 6th China Undergraduate Physics Experiment Competition Dec. 2020
Highest-level national physics-related competition in China

1st Prize in the 11th "Blue Bridge Cup" National Competition Nov. 2020
Highest-level national programming competition in China

Academic Services

Computer Vision and Pattern Recognition | Zhejiang University, Teaching Assistant	Spring 2024
IEEE Conference on Computer Vision and Pattern Recognition (CVPR) | Reviewer	2023
European Conference on Computer Vision (ECCV) | Reviewer	2024
ACM International Conference on Multimedia (ACMMM) | Reviewer	2024
IEEE International Conference on Multimedia and Expo (ICME) | Reviewer	2024

Technical Skills

Programming Languages: Python, C/C++, Matlab, HTML/CSS, JavaScript, LaTeX

Libraries and Tools: PyTorch, Docker, Linux, Git, NumPy, Matplotlib, Pandas, Scikit-learn
